

# Combination 180IB

Art. no. 25543

Page 1 of 1

## Technology

- Body made of solid brass
- Shackle made of stainless steel
- Inner components made of non-corrosive materials
- Precision locking mechanism with special protection against manipulation
- 4-digit resettable code

## Operation and use

- The 180IB is an all-weather, rust-free combination lock for outdoor use. It can be used to secure doors, gates, lockers, toolboxes, cellar windows, sheds, etc. Due to the stainless steel material it is well-suited for outdoor use and in heavy weather conditions, for example in maritime areas, on trucks or boats. Especially practical is the handling without a key by means of a 4-digit number combination that can be set individually by the adjustment key that comes with the lock.

## Variants

- Additional Shackle Lengths: 2 1/2"
