- \* HPC has a car opening kit to fit every need and every level.

No. AKK-55

#### Starter Killer Kit

An ideal set for beginners, it contains 4 tools and 2 wedges to get you started manipulating vertical & horizontal rods, performing Under & Over openings, and more.

No. AKK-66

#### Pro Killer Kit

Building on the Starter Killer Kit, it adds the Collapsible Opener for Through Car openings, a pair of the larger Ultimate Auto Wedges, as well as the Flex-A-Light™ probe light.

No. AKK-77

#### Deluxe Killer Kit

From the Pro Killer Kit, this kit adds the Sir James™ opener and the deluxe and durable carrying case, making it even easier to carry your tools to the job site.

No. AKK-99

#### Ultimate Killer Kit

This kit adds 5 more tools to the Deluxe Killer Kit, providing more options in Under & Over openings, a better grip on horizontal rods with the Horizontal Clutch™ tool, and more. The Interactive Car Opening Authority® is included as a reference source as to which opening technique to use, as well as a teaching source to learn how to perform each technique. The Novice Pick Set rounds out this impressive selection, giving you the tools for picking and raking.

#### Fully-Loaded Killer Kit

This comprehensive kit includes some of the best tools from the Ultimate Killer Kit, plus has the popular Vertical Clutch™, 6 innovative long-reach through-car tools, all 6 of the HPC wedges, the Auto Sleeve™ to protect your customer's car, and the How to Master Car Opening instructional CD. For Security Professionals looking to become Car Opening Professionals, the Fully-Loaded Killer Kit is the kit of choice, equipping you for most every vehicle on the road.
